

QLA Straight Crimp Plug For RG316

Part Number: 319-102

Mechanical data

Cable Entry Centre Contact	soldered
-----------------------------------	----------

Cable Entry Outer Contact	clamped
----------------------------------	---------

Dielectric Size	2
------------------------	---

Electrical data

Impedance	50 Ω
------------------	-------------

Interface Freq max	$\leq 1.4\text{GHz}$
---------------------------	----------------------

Environmental and general data

Operating Temp min	-55°C
---------------------------	-------

Operating Temp max	150°C
---------------------------	-------

Weight	0.0041kg
---------------	----------

Number of Matings	10000
--------------------------	-------

Cable Retention Force	125N
------------------------------	------

Material data

Piece part	Base material	Plating
-------------------	---------------	---------

Center contact	Brass	Gold Plating (Nickel underplated)
-----------------------	-------	-----------------------------------

Outer contact	Brass	Nickel Plating
----------------------	-------	----------------

Insulator	PFA / PTFE
------------------	------------

Body	Brass	Nickel Plating
-------------	-------	----------------

Crimp ferrule	Brass	Nickel Plating
----------------------	-------	----------------
